

ROUSH®

Focused. Driven. Committed.

Roush Industries Job Posting August 6, 2010 – September 10, 2010

Design Release Engineer - Powertrain

Roush supplies comprehensive, integrated development services and provides customers with support that fuses technology and engineering. From design through prototyping, testing and manufacturing, we take our customers' visions from the sketch pad to production. We're focused, efficient, and we deliver. With over 2000 employees in more than 40 facilities across the United States, and interests around the world, Roush solves customers' problems and provides significant support to the automotive, performance products, military, entertainment, life sciences, alternative fuels and consumer products industries.

We are focused on performance, driven by technology, and committed to our customers' success. If you're only happy when your customers are happy, we want you on our team.

We have an immediate opening for a Powertrain Engineer who will be involved in the design, release, and development of powertrain system components. You must show a capacity to quickly assimilate and understand the implications of new developments and be ready to respond appropriately to situations as they evolve. The position is located in Allen Park, Michigan.

Requirements:

- Bachelor's degree in Engineering (ME preferred)
- 3+ years of powertrain systems design engineering experience
- Experience with OEM automotive, military, or commercial truck engineering systems and processes
- Experience with production assembly and manufacturing processes, including launch
- Experience with DFMEA and DVP development and/or maintenance
- Excellent organizational skills including prioritizing work assignments
- Ability to communicate effectively, both verbally and in writing
- Demonstrated ability to work independently and in team settings

Preferred Skills:

- Experience in one or more of the following areas:
 - Emissions controls and aftertreatment, particularly diesel
 - Exhaust system
 - Air Induction
 - Powertrain mounting systems
 - Thermal systems
- Cost reduction / value management experience strongly preferred

**You must refer to this posting to be considered.
