

# ROUSH®

Focused. Driven. Committed.

## **Roush Industries Job Posting August 23, 2010 – September 10, 2010 Design Release Engineer - Driveline**

Roush supplies comprehensive, integrated development services and provides customers with support that fuses technology and engineering. From design through prototyping, testing and manufacturing, we take our customers' visions from the sketch pad to production. We're focused, efficient, and we deliver. With over 2000 employees in more than 40 facilities across the United States, and interests around the world, Roush solves customers' problems and provides significant support to the automotive, performance products, military, entertainment, life sciences, alternative fuels and consumer products industries.

We are focused on performance, driven by technology, and committed to our customers' success. If you're only happy when your customers are happy, we want you on our team.

**We have an immediate opening for a Driveline Engineer who will be involved in the design, release, and development of driveline system components. The position is located in Allen Park, Michigan.**

### **Requirements:**

- Bachelor's degree in Engineering (Mechanical Engineering degree preferred)
- Minimum 3+ years' experience with powertrain component/system design and development in any of the following areas: manual & automatic transmissions, clutch systems, drive shafts, differential/axle systems or half shafts
- Experience with OEM automotive, military, or commercial truck engineering systems and processes
- Experience with production assembly and manufacturing processes, including launch
- Experience with DFMEA and DVP development and/or maintenance
- Excellent organizational skills including prioritizing work assignments
- Ability to communicate effectively, both verbally and in writing
- Demonstrated ability to work independently and in team settings

**You must refer to this posting to be considered.
