

ROUSH®

Focused. Driven. Committed.

Roush Industries Job Posting August 13, 2010 – September 13, 2010

NVH Test Technician

Roush supplies comprehensive, integrated development services and provides customers with support that fuses technology and engineering. From design through prototyping, testing and manufacturing, we take our customers' visions from the sketch pad to production. We're focused, efficient, and we deliver.

With over 2000 employees in more than 40 facilities across the United States, and interests around the world, Roush solves customers' problems and provides significant support to the automotive, performance products, military, entertainment, life sciences, alternative fuels and consumer products industries.

We are focused on performance, driven by technology, and committed to our customers' success. If you're only happy when your customers are happy, we want you on our team.

We have an immediate need for an NVH Test Technician to work at a customer site for a 6 month project. This position is located in Dearborn, MI.

Requirements:

- Minimum 2 year technical degree with 4 to 8 years' experience in an automotive NVH engineering lab or development area
- Must have experience with either LMS Test.lab, Artemis, or PROSIG data acquisition systems
- Must have experience installing various NVH transducers on automotive vehicle components
- Must be a team player and willing to learn
- Ability to quickly learn how to use instrumentation, test equipment and conduct specific NVH tests
- Must be detail oriented, organized, and careful in work habits
- Excellent interpersonal skills
- Very good verbal / written communication skills
- Possess good mechanical skills
- Familiarity with PC: MS Office, PowerPoint, Excel, Word

Preferred:

- Associate's degree in a Mechanical, Automotive, or Acoustics discipline
- Experience with all: LMS Test.lab, Artemis, PROSIG data acquisition systems
