Equipment and Resource Rental

In addition to providing noise and vibration consulting and product manufacturing, Roush also has equipment and resources available for rental to customers in the greater Detroit area. Equipment and resources include:

- Four-wheel chassis rolls dynamometer.
- Hemi-anechoic quiet rooms:
 - 23' x 40', 18 dBA background noise, 80 Hz cutoff
 - 16' x 16', 20 dBA background noise, 200 Hz cutoff
 - 21' x 34', 35 dBA background noise, 200 Hz cutoff
- Sony SIR-1000i digital tape recorders.
- PCB accelerometers and B&K microphones.
- PCB modal impact hammers (all sizes).
- HeadAcoustics binaural recording and analysis equipment.
- Agilent (formerly Hewlett-Packard) analyzers.

Call for availability, prices, terms and conditions.
