

## **Thomas F. Taylor – Biography**

---

Thomas F. Taylor is President of Roush Life Sciences (RLS), a division of Roush Enterprises, Inc. RLS designs and develops laboratory research products and medical devices.

Before joining Roush in 2008, Taylor was President of Nypro Life Sciences, a division of Nypro Inc., a billion dollar global manufacturer of custom plastics offering integrated contract manufacturing. He held several other senior management positions with Nypro, including Vice President of Global Marketing and Business Development for Nypro's 250 million dollar healthcare market segment, President of Nypro Medical Products Group, where he was responsible for initiatives on new proprietary medical products and technologies, and Vice President of Business Development. He also assisted in opening Nihon Nypro in Tokyo, which sells disposable OEM medical devices in Japan and Asia. He served as a board member on Nypro-Forbes India, a Nypro joint venture contract manufacturing company, Radius Product Development, a Nypro joint venture design firm and NPA, a Nypro joint venture contract manufacturing company located in Mexico.

Prior to Nypro in 2003, Taylor was Vice President of the OEM Healthcare Business Unit at Millipore Corporation, where he led sales, marketing, research and development for all polymer membranes and medical devices for the global medical and diagnostic market.

An authority on practices and trends in the medical device market, Thomas serves on a number of association boards, industry advisory panels and editorial boards including MassMEDIC, Medical Products Outsourcing, and Emerging Life Sciences Alliance. In addition, he has written several articles on plastics, medical products, and outsourcing. In 2009, Taylor was voted Chairman of MassMEDIC, a New England Medical Device Industry Council with over 300 companies.

Taylor is a graduate of Ferris State University with a degree in Plastics Engineering and holds an MBA from New Hampshire College. He and his family reside in Salem, New Hampshire.
